# PROGETTO IMPIANTO DI FITODEPURAZIONE

The diagram is a detailed architectural site plan. At the top, a large area is labeled 'VIGNA' (Vineyard) and is filled with diagonal hatching. Below this, a central building is labeled 'CANTINA DI PROGETTO' (Proposed Winery) and is also hatched. To the right of the winery, a small circular feature is labeled 'pozzo sorgente' (spring well). A dashed line with arrows indicates a path or boundary. In the bottom left corner, a rectangular area is labeled 'LETTO DI FITODEPURAZIONE DI PROGETTO' (Proposed Phytoremediation Bed) and contains dimensions: 5.00, 4.50, and 8.50. The label 'ALTRA PROP.' (Other Property) appears twice, once near the phytoremediation bed and once near the vineyard. The plan shows various lines representing property boundaries, paths, and the layout of the buildings and vineyard.
